Hot take: Car/Heli importing exploits should be allowed

for those who are very bored of the game (example me) jailbreak is filled with off brand cars we need even more cars with special abilities such as jumping motor switch to ICE, Electric 300+ car a car with good acceleration and a CAR that isnt off brand we want the 2022 jailbreak vibes but it is impossible to get those and not exploit without the jailbreak map copy (with scripts) (edited)
